197-200 g/km

A DRIVE THAT EXCEEDS EXPECTATIONS

Enjoy the thrill of unadulterated driving pleasure. With its muscular design and low centre of gravity, GR86 is a true driver's car for those who understand what makes driving special – the moment of clarity as the car and road come together as one. GR86 is a free spirit that invigorates every journey.

SMILE BEHIND THE WHEEL

Our most enviable coupe, GR86 draws admirers for its outstanding performance. More precise steering and a rigid body deliver superb handling and control, while a lower centre of gravity and excellent traction during cornering ensure it responds to your every direction.

Enjoy the raw driving thrill of the revolutionary new horizontally opposed four-cylinder engine. Our lightest four-seater coupe ever, the result is a truly exhilarating driving experience.

GR86's low centre of gravity makes handling corners effortless.

GR86 features a lighter, more rigid suspension, enhancing the light handling performance and superior steering responsiveness typical of a sports car.

WAKU-DOKI*

HEART-PUMPING PERFORMANCE

A drive that puts a smile on your face no matter what. GR86 delivers a unique driving experience directly influenced by Toyota's illustrious legacy in motorsport. This expertise translates to a responsive, agile and dynamic drive with advanced aerodynamic components and heart-pumping performance. Encapsulating the characteristics of its ancestors, the GR86 generation builds upon this heritage with high-performance sports tyres and front engine and rear-wheel drive configuration to bring you our most exciting coupe yet.

Motorsports reimagined for today. GR86 uses class-leading aerodynamics including front air outlets, side sill spoilers and a ducktail rear spoiler developed from Toyota racing experience.

* This iconic Japanese phrase encapsulates the feeling behind Toyota's Gazoo Racing heritage – translated as heart-pumping excitement, the adrenaline rush of pure, unadulterated driving thrills.

SUPREME RACING PERFORMANCE FOR THE ROAD

Everything you know and love about sports cars – dialled up even higher. Reconnect with the road thanks to a host of performance-enhancing features designed to let you feel more. Combining enhanced accelerator response and heightened shift and clutch with an exceptionally lightweight body, the GR86 offers raw driving thrills. Use TRACK mode to turn up the racing performance, while lower centre of gravity and increased brake sensitivity create a safe and highly responsive drive.

Switching to TRACK mode changes the meters to a racing style display showing lap time, revs, oil temperature and other racing information.

The manual gearshift offers enhanced control that reconnects you to the road.

The new Toyota GR86 engine features increased intake and exhaust functions to enhance drive power performance and response, while friction has been reduced to give more torque at all speeds, offering 250 Nm @ 3400 rpm.

RAW PERFORMANCE

Building on years of iconic racing knowledge, the Toyota GR86 takes driving pleasure to an entirely new level. The new 2.4 litre engine gives you even more to play with, offering 173 kW power and outstanding 250 Nm torque in an instant. GR86 parades its motorsport heritage proudly, building upon the ground-breaking features of its predecessors. Revel in the iconic speed of a sports car with 0–100 km in 6.5 seconds. The outstanding D4S fuel injection system enhances power and engine sensation. Focused on fun, but with the performance to go further.

Inheriting a front-facing, lightweight and compact engine, GR86 increases its displacement size from 2.0 to 2.4 for maximised power and an improved torque curve to enhance acceleration.

MAKE A STATEMENT

GR86's striking good looks have been designed with performance in mind. A wider stance and chic aerodynamic front air dams and air breather vents create outstanding front-end road-holding. New, sleek horizontal side spoilers help to reduce roll, whilst the rear wheel arch fins and rear spoiler, improve rear stability. Toyota GR86 commands the attention an iconic racing car deserves with its eye-catching streamline shaping from every angle. Turn heads wherever you go.

Informed by Toyota motorsport innovation, GR86 is fitted with front air breather vents for improved performance and handling response.

Muscular, wider rear profile enhances stability.

FOR THE PURIST

A true driver's car, GR86 boasts an interior intuitively designed around you with features to make it wholly fun to drive. The new seating position opens up your field of view, taking you closer to the road and improving your centre of gravity. With a new horizontal dashboard layout, you can concentrate solely on the drive ahead. And it doesn't stop there. The 4.2" colour TFT multi-information screen and new LCD meters with separate road and track settings offer excellent connectivity and control whilst driving.

The GR86 lower seating position puts you closer to the centre of gravity for outstanding stability and traction.

CONFIDENCE WITH EVERY TURN

Playful and fun, without compromising on safety. The Toyota GR86 is as safe as it is exciting, with a wealth of intelligent considerations to enhance every drive. Standard safety features such as Parking Support (RCTA), rear-view monitor and Blind Spot Monitor make it easier than ever to park in difficult spaces. The GR86 is also equipped with EyeSight Driver Assist Technology, featuring Pre-Collision system (including brake), Adaptive Cruise Control and Lane Departure Alert (automatic transmission grades only). With Toyota's excellent innovation, access all of these safety features and more.

Never lose sight of the road with Blind Spot Monitor and a suite of other excellent safety features thanks to Toyota Driver Assist Technology.

Pre-Collision braking technologies help avoid collisions and mitigate against damage to support safe, everyday driving.

Adaptive Cruise Control is used to intuitively speed and slow the car to maintain safe driving distances and stay within the speed limit.

Active High Beam ensures excellent forward visibility when driving at night by detecting the oncoming headlights and tail lights of other vehicles and adjusting the beam accordingly.

Lane Departure Alert: An intelligent lane keep system alerts you if the system detects the vehicle is about to deviate from a traffic lane. When Radar Cruise Control is activated, the system helps the car stay on course by applying a small amount of counter-steering force.

Leading Vehicle Notice alerts the driver when the vehicle in front has started moving off.

GR86 has a highly rigid body structure. High strength materials around the cabin and an impact absorbing page in the inner roof help to protect the occupants in case of collision. Whilst the outer body structure has been designed to efficiently absorb and distribute impact energy.

SPORT

Main features

- 17" machined-face alloy wheels (10-spoke)
- 7" screen for information display
- 8" multimedia display
- GR logo on steering wheel
- Cruise Control
- 3-spoke leather steering wheel
- Bluetooth® hands-free system
- Fabric front door trim
- Front ventilated disc brake
- Rear ventilated disc brake
- LED front light guide
- Supplemental Restraint System (SRS)
- 7 airbags
- MacPherson strut front suspension

Main features

- 18" forged alloy wheels (10-spoke)
- Paddle shifts
- Aluminium pedals
- Leather gear shift knob
- Suede-like front door trim
- Heated driver & front passenger seats
- Automatic High Beam
- Adaptive Front light System (AFS)
- Adaptive Cruise Control with Full Stop Functionality
- Rear parking sensors with automatic braking (for object)
- Pre-Collision System with Pedestrian and Cyclist Detection
- Lane Departure Alert

PREMIUM

In addition to Base grade features, with High grade enjoy 18" alloys, heated seats and partial leather and suede seats.

SPORT PACK

The front skirt, side and rear skirt integrate with, and complement, the GR86's design and enhance the appearance of sports-inspired individuality.

1. Rear Spoiler

The rear spoiler seamlessly integrates with your car's streamlining to create a look of high performance. The design purposefully reflects your vehicle's superb performance and road-handling.

2. Vent Inserts

A subtle accent to personalise your front air breather vents.

EXTERIOR STICKER DECORATION

Roof, side and hood sticker in black and red emphasise your car's sculpted contours.

PROTECTION PACK

1. Toyota ProTect (LLBP)

Seal your vehicle with a tough glass shell that protects paintwork, side windows and rear screens from pollution, weather and other external threats.

2. Door Handle Protection Films /

Rear Bumper Protection Film

Reliable protection to help prevent minor scratching of the paintwork around your car's door handles or rear bumper when unloading the boot. They are made of tough transparent self-adhesive film and shaped for an exact fit.

3. Textile Floor Mats

Genuine textile floor mats are tough, practical and easy to clean. The driver's mat has a special fixing to prevent slippage during use

4. Front & Rear Set Mud flap

Especially shaped to fit the wheel arches and reduce water, mud and stones spraying onto your car's body.

SAFETY PACK

1. Vertical Cargo Net

Strong, woven, black nylon net with two compartments for holding small items securely in your car's boot area. The net fixes neatly on to pre-fitted side and floor hooks.

2. Wind Deflectors

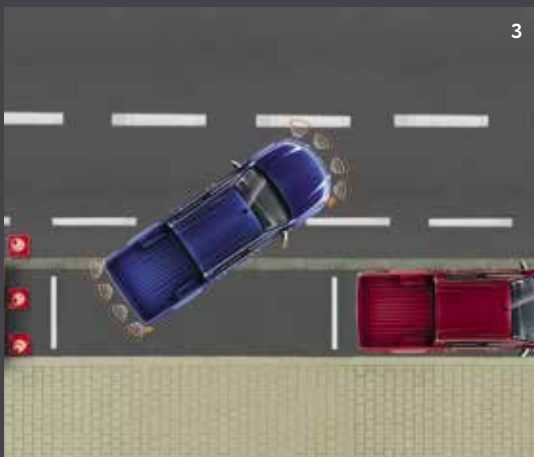

Wind deflectors are ideal if you like to drive with the windows open. They are custom designed to match the aerodynamic contours of your vehicle and work by diverting airflow to ensure that you are not troubled by excessive wind movement and noise.

3. Parking Assist

Rear parking aid system with ultrasonic sensors and in-car alarm for easier parking.

4. Wheel Lock Nut

Hardened coded wheel locks which provide a permanent guard for your alloy wheels.

BODY COLOURS

Crystal White (K1X)

Ice Silver (G1U)*

Action Grey (PBY)*

Sapphire Blue (WCH)

Ignition Red (DCK)*

Crystal Black (D4S)*

* Metallic paint.

TOYOTA
ENVIRONMENTAL
CHALLENGE 2050

TOYOTA 2050 ENVIRONMENTAL CHALLENGE & LIFECYCLE POLICY

At Toyota, we want to go beyond zero environmental impact and leave the world in a better place than we found it. To make that happen, we have set ourselves six challenges to complete by 2050. Each one presents its own difficulties, but we are committed to generating a positive and sustainable impact on society and the natural world as a whole.

For more information regarding Toyota Environmental Challenge please visit:
www.toyota-europe.com/world-of-toyota/feel/environmental-sustainability
or contact your local Toyota retailer.

CHALLENGE 1

NEW VEHICLE – ZERO CO₂ EMISSIONS

By 2050, we want to reduce the CO₂ emissions from our vehicles by 90% compared to our 2010 levels. To achieve this, we will promote the development of new vehicles with low or zero carbon emissions, and do everything we can to increase the uptake of these vehicles.

CHALLENGE 2

LIFE CYCLE – ZERO CO₂ EMISSIONS

We are working to create more environmentally friendly designs – and then analysing and refining them to ensure the lowest possible environmental impact throughout the vehicle's entire life cycle*.

CHALLENGE 3

PLANT – ZERO CO₂ EMISSIONS

To reduce carbon emissions at our manufacturing plants, we are focusing on improving the technologies we use and switching to alternative power sources. We are committed to making our facilities more energy-efficient and adopting renewable energy sources such as solar and wind, and hydrogen energy.

CHALLENGE 4

MINIMISING AND OPTIMISING WATER USAGE

To minimise water usage, we have started to collect rainwater at our manufacturing plants. We have also developed purification methods so that the water we do use can either be used again or returned safely into the local supply.

CHALLENGE 5

ESTABLISHING A RECYCLING-BASED SOCIETY AND SYSTEMS

We've been working on the challenge of resource recycling for 40 years, with the result that 95% of every Toyota GR86 is now reusable and recoverable. In addition, we offer new and innovative ways of returning your vehicle when it eventually reaches 'the end of the road'.

CHALLENGE 6

ESTABLISHING A FUTURE SOCIETY IN HARMONY WITH NATURE

To preserve and enhance our co-existence with the natural world, we are organising reforestation and tree planting, green urban schemes and other environmental initiatives, both at our own sites and in the wider world. Our aim is to establish a society where people and nature coexist in harmony.

* Toyota's LCA methodology, which is applied to our passenger vehicles, was reviewed and approved by TÜV Rheinland and has been certified to comply with ISO14040/14044 standards.

YOUR COMPLETE
PEACE OF MIND
WITH TOYOTA

QUALITY SERVICE

Your Toyota will need a Health & Safety check at least once every 2 years/30,000 km (whichever comes sooner). An intermediate check is necessary every year or 15,000 km.

LOW MAINTENANCE COSTS

All Toyota vehicles are designed and engineered to minimise your maintenance costs.

GENUINE PARTS

Providing the reassurance of Toyota quality, only genuine and approved components are used on your vehicle.

COMPREHENSIVE WARRANTY

Every new Toyota comes with a 3-year/100,000 km vehicle warranty*, which covers any defect caused by a manufacturing fault[‡]. After the three years, you have the opportunity for a corresponding service activated warranty. Every time you bring your Toyota in for a service with us, you will get 12 months of warranty - up to 10 years vehicle age or 160,000 km (whichever comes first).

ADDED SECURITY

Toyota's comprehensive security system withstands the insurance industry's rigorous 5-minute attack test.

TOYOTA EUROCARE

Enjoy peace of mind driving with complimentary Toyota Eurocare roadside assistance in 40 European countries for 3 years[§].

GENUINE ACCESSORIES

Toyota accessories are designed and manufactured with the same care, quality and attention to detail as Toyota vehicles. All accessories are covered by a 3-year warranty when purchased together with the vehicle[‡].

For more information on peace of mind visit: www.toyota-europe.com/service-and-accessories

* Check with your retailer for specific warranty details. [‡] Transport to the nearest authorised Toyota repairer will also be covered. In addition the 3-year/unlimited mileage paint warranty protects against defects and surface rust caused by a manufacturing fault. Every new Toyota is covered by a 12-year anti-corrosion (not valid for commercial vehicles) warranty against perforation of body panels caused by a manufacturing fault in materials or workmanship. [§] Belgium 5 years/Portugal and Denmark 1 year.

TOYOTA GAZOO RACING HERITAGE

With Toyota GR86, motorsports isn't just our inspiration, but a proud part of our DNA. Joining a long line-up of successful sports car ancestors including the Toyota AE86 Super GT, Toyota GR86 builds upon this heritage. GR86 is expressly built for performance, inspired by a legacy of competitions including Super Endurance, Rally Dirt Trial and Gymkhana. Its track predecessor GT 86 has enjoyed worldwide acclaim in competition, winning in two classes at the 24 Hours Nürburgring in 2012. Be part of an iconic history with GR86.

Hypercar Teams World Endurance Champions
November 2021: TOYOTA GAZOO Racing made endurance racing history as the first World Champions of the Hypercar era with a one-two victory in the 6 Hours of Bahrain. On a day of milestones, the team also became the first to win every race in a WEC season.

Manufacturers' World Rally Champions
November 2021: The TOYOTA GAZOO Racing World Rally Team achieved a magnificent championship treble at Monza, clinching the manufacturers' title with a one-two finish at the final round and driver's and co-driver's titles for Sébastien Ogier and Julien Ingrassia.

Dakar Rally Champions

January 2022: TOYOTA GAZOO Racing's Nasser Al-Attiyah and co-driver Mathieu Baumel brought their Toyota GR DKR Hilux T1+ home safely on the final stage of the iconic 44th Dakar Rally to win overall by 27min 46sec.
